## SharePoint Broken Links & Durable Links - Cognillo

The Kindle Personal Documents Service is a free tool that allows you to send files to supported devices registered to your Amazon account. Send documents from an authorized email address or a Send to Kindle application.

### **Amazon.com Help: Learn About Sending Documents to Your ...**

Document Library was just a static place where you would upload a document to. However, if you desired some sort of automation, a SharePoint Document Center provided additional options. Anytime you provisioned a Document Center, it created a site with a document library and some built-in document management features.

### **ID.me Support**

The documents on List A show both identity and employment authorization. Employees presenting an acceptable List A document should not be asked to present any other document. Some List A documents are in fact a combination of 2 or more documents. In these cases, the documents presented together count as one List A document.

Please activate the feature manually from the Site Collection Administration page. **IMPORTANT** : Even if you see "Activated" for this feature, wait for the feature to be completely active before continuing, otherwise your document IDs will not be copied.

### **Document ID Service feature cannot be automatically ...**

Document ID link will remain the same even if you move the document to different library or folder (inside the single site collection). This is how it's supposed to work. Unfortunately, moving the document to a different library using the modern Move to -function from the ribbon will actually create a new Document ID and thus broke the link.

## Online Library Document Id Service Not Working

After we installed a SharePoint Server 2010 CU, we noticed that the document ID service started showing strange behaviour. It follows the same template as before: [Prefix]-[List ID]-[Item ID], where we would expect a new list on a site to have an ID of 1. Now it seems as though it assigns a random 8/9 digit number.
